Project Description

A "natural body of water" is defined in Wisconsin law as any spring, stream, pond, lake or wetland that was historically present in a natural state but may have been physically altered over time. A "freeze-out pond" is defined in Wisconsin law as a natural, self-contained body of water in which freezing or anoxic conditions prevent the body of water from naturally sustaining a fish population at least twice every 5 years.

Operating a fish farm in a Natural Body of Water requires a permit under NR 19, Wis. Adm. Code. I am applying for:

- ☒ **NR 19 Permit Renewal** - for continued use of a natural waterbody that was previously permitted as a preexisting fish rearing facility or a freeze-out pond.
- ☐ **Initial NR 19 Permit** - for new use of a natural waterbody for fish farming (note, the waterbody must be a freeze-out pond).
- ☐ **Transfer of NR 19 Permit** - to convey an existing NR 19 permit from one party to another, as a result of change in ownership or leasehold interest of a fish farm.

Number and dimension of ponds, raceways or tanks. Describe here and attach a diagram (Attachment # 4)

Attachments (Provide all of the following)

1. Location sketch or map showing route to the project site, indicating nearest main road and crossroad, north arrow and scale.
2. Photocopy of deed, lease, land contract or other documentation showing that the land that is riparian to the body of water is owned, leased, or controlled by the permit applicant.
3. Photocopy of plat book showing property owners; photocopy of any easements for all properties surrounding the waterbody; and other documentation to show that none of the owners of the fish farm or riparian lands provide public access to the body of water by means of an easement or right-of-way or by means of a business open to the public. Note: the owners of the fish farm may allow fishing by the public for a fee.
4. Diagram showing number and dimensions of all ponds, raceways, tanks or other waterbodies to be used for fish farming.
5. For an Initial NR 19 Permit – Documentation to show the natural waterbody is a "freeze-out pond", meaning it is self-contained and has freezing or anoxic conditions that prevent a naturally-sustaining fish population at least twice every five years.
6. For a Transfer of NR 19 Permit – Photocopy of the previous owner's NR 19 permit, and documentation to show change of ownership.
7. Photocopy of any other permits or authorizations required by Ch. 30 or 31, Wis. Stats., the Army Corps of Engineers and any other federal, state or local laws and zoning ordinances for construction or operation of the fish farm. (Note: Permits issued under Ch. 30.19, 30.195 or 31.04 may mean your waterbody is exempt from a permit requirement.)
8. Photocopy of Department of Agriculture, Trade and Consumer Protection (DATCP) Fish Farm Registration from current or previous year.

Note: If conditions 2, 3, and 7 are met, then the DNR may find that your fish farm is exempt from a Natural Waterbody permit requirement. If so, the DNR will return your application and notify you of this finding.

Dear Natural Waterbody Permit Holder:

Our records indicate on 03/04/2003 you received a permit (NOR-5306) to use a Natural Waterbody for your fish farm. Your permit will expire 03/04/2013, and the deadline for you to submit your application for a permit renewal is July 1, 2013.

To renew your permit, you must complete the attached Fish Farm Application for Use of Natural Body of Water permit and mail it, the required attachments, and a \$50 permit application fee to:

Bureau of Fisheries Management
-Natural Waterbody Permits
P.O. Box 7921
Madison, WI 53707-7921

Make check or money order payable to Department of Natural Resources (DNR)

The DNR will renew your permit unless our staff determines that your fish farm has **substantially adversely** impacted any of the following: plant and wild animal habitat or populations; water quality and quantity in lakes, streams or rivers, threatened or endangered species or their habitats, wetlands and the public's right to navigate and associated incidents to navigation including fishing, swimming, wading and canoeing.

Please apply early and submit a complete application, which includes the six required attachments described on the application form, so that we can review your application thoroughly and quickly.

I've enclosed two fact sheets that answer many common questions about the permit process. If you have additional questions, please contact your Regional Natural Waterbody Permit Coordinator:
